Summary

I graduated with a bachelor's degree in Information Assurance in 2022. However, I started working for a company providing cyber security services in 2021 with the job of Web/App Penetrating Testing. For nearly 2 years, my main job is as a security researcher, programming vulnerability testing tools, finding and exploiting vulnerabilities for Websites/Applications related to the fields: banking, finance, insurance,...
Recently, when I realized that I have a great passion for programming and building websites/software, I decided to pursue my passion to become a professional programmer.

Experience

Full Stack Developer

Personal Project Development

Sep 2022 - Present (7 months)

Develop personal projects:

- Booking Care App, NFT Marketplace, Charity DAO App, Facebook Clone, Security Scanner Tool
- Applied technology: ReactJS, Redux, NodeJS, Express, HTML/CSS, Responsive, Solidity, Blockchain, Dapp, Rest API, PostgreSQL, MySQL, Python, Web/App Security

Web/App Pentester

Techlab Corporation

May 2021 - Jan 2023 (1 year 9 months)
